DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
2. The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - I. Regarding Claim 1, it is unclear whether the claimed article is a layer comprised of the claimed alloy and having the claimed thickness which article has the intended use of bonding a resin layer to a copper surface, whether the claimed article is the already described layer sandwiched between a resin layer and a copper surface, or whether the claimed article is the already described layer on a copper surface which article has the intended use of bonding to a resin layer. It is unclear what is meant by the phrase "type of metal". Does this refer to the recited metal in elemental form, possibly to some compound that contains the recited metal, or to something else?

Conclusion

4. None of the claims have been rejected over the prior art at this time. Whether the claims are allowable over the prior art cannot be ascertained until applicant responds to the indefiniteness rejections.
